Subject: RE: FL 404 assumption website

I added:

The obligations in the ITS and BiOp to our review process.

A hotlink to FL's page. They were okay with EPA linking to their page (I asked for the link under the US map) so we have the permission. I'll look for the email with the permission and send it on to Davina.

Would be nice if they updated their page but.....

I added a couple comments in the doc- edited to reflect that 8/20 was the receipt date not the submission date, tweaked some acronyms, and added a topic sentence for one of the final paragraphs. The BE says it analyzed 200 “endangered” species but I think that should be “threatened and endangered” so was going to double check the numbers in the BE.

Best,
Whitney

Thanks, looks really good. A few minor thoughts for consideration

- 1) There is an extra space at the end of the second to last paragraph.
- 2) Should we move the effective date up to the beginning. Or should we add (effective December 22, 2020) under the title? You have to read to the end to know FL is issuing permits.
- 3) Suggest we link to FL's web page in the section on Status of Florida's 404 program implementation? Maybe the link goes after that first sentence?

- Kathy

Attaching a word doc in case that's easier to review in track changes. The formatting of the photos didn't come through so I just left those off.

You do need to be logged into VPN to view the webcms version.

Best,
Whitney

Sorry all I have been unable to view this. Tried when you first sent it an today. I trust you all though so....

However, as for where it resides, I think it needs to be on the Region's platform and we at HQ will continue to link to it. If we put it here, there are way too many reviews we need to go through and changes will need the same review.

Davina,

There is a typo in this sentence. I am not sure of the exact date, but I think it is August 20, 2020: "On August 202, 2020, the EPA received a complete package from the Florida Department of Environmental Protection (FDEP) with a request to assume administration of a Section 404 program, triggering a 120-day review period set forth by the CWA."

Thanks very much Davina. I took a quick look at the website and generally think it looks good. I'm assuming language was pulled from other documents and/or press release language that has already been vetted...is that correct? I'm including other members of the assumption team on this email to also weigh-in. Tom

Subject: FL 404 assumption website

Good morning Tom,

Before the holidays, Mary asked Brandi to stand up a website with the FL 404 assumption information. I drafted the content and Sherry has pulled together a draft page that I'm hoping you and anyone else in WD that needs to review can look at. To view, first go to **Ex. 6 Personal Privacy (PP)** and login in with your LAN username and password. Once you've logged in, you should be able to open this link: **Ex. 6 Personal Privacy (PP)**

Per my voicemail, we're not sure where this will be posted. Our preference is somewhere on the national website. There's a page under HQ's "Wetlands" website with example wetlands programs (<https://www.epa.gov/wetlands/examples-state-and-tribal-wetland-programs>), and New Jersey's 404 program is featured for R2: <https://www.epa.gov/wetlands/new-jerseys-clean-water-act-ss404-permit-program>

I modeled our draft page after NJ's and we can ask to have it posted on the above page, and add a link to it from our R4 FL page and in the press release too. We're also asking HQ to update to the interactive map on the following page to reflect FL: <https://www.epa.gov/cwa404g/us-interactive-map-state-and-tribal-assumption-under-cwa-section-404>

If we don't hear back from HQ, our backup plan is to post the content on our FL page: www.epa.gov/fl

Please let me know your thoughts – thank you,

Davina Marraccini
